## Corporate Activity Packages

Looking for a fun, effective team-building event or an innovative way of entertaining your clients? Want to help a local children's charity at the same time?

Adventure Unlimited is a local charity which aims to enrich the lives of children and young people, particularly from disadvantaged backgrounds, by offering a range of outdoor adventure and education activities including climbing, kayaking, archery, and bushcraft. We also train unemployed people to run activities. The charity has been established since 1977 and we are experts at delivering safe, fun, educational activities for all age groups. Our corporate team-building events and other paid-for activities help to fund our work with disadvantaged children.

We offer four packages for corporate groups:

### 1. Get Out Of That!

Use your team's creativity, communication and problem solving skills to tackle a range of challenges and to 'Get Out Of That!' Activities will be adapted to suit your group's needs, but usually are for a half –day and include:

- **Critical Mass** - Avert a nuclear disaster and save the world by protecting the radioactive Uranium. Racing against the clock you'll need to get the Uranium through the dangerous chamber using only the mats and tubes provided.
- **3 Wise Monkeys** – With one blind member, one mute member and one deaf member, you must work as a team to retrieve all 'lost' items. Communication and team work are essential for solving this tricky challenge.
- **Toxic Leak** - Retrieve a container of toxic liquid without losing group members to the acid swamp. With limited equipment you'll need to plan and practice this challenge to make sure everyone survives.

Get Out of That! can be delivered in-house, indoors or out.

## 2. Woodland Adventure Activity Day

Hidden in the glorious Sussex countryside, Brook Farm activity site is designed to remain empathetic with its Area of Outstanding Natural Beauty status. With the site exclusively available to your group for the day, you can relax and take the activities at your own pace. A typical day would include:

- **Team-building** – Use your team’s creativity, communication and problem solving skills to tackle our challenges and ‘Get Out Of That’!

AND:

- **Obstacle course** – Laugh your way through over 10 challenges including swamp crossing, fairy loops and giant swing.

AND one of the following:

- **Archery** - Our expert tuition will have you hitting the gold in no time.

OR:

- **Climbing** – Trust your partner to keep you safe whilst you scale our woodland climbing wall.

## 3. Survival Challenge

Test your survival skills by working as a team to rescue a colleague. You’ll each learn and use a range of skills including stretcher building, navigation and search patterns. Race against the clock to become a team of heroes and save the day by finding, treating and returning an injured colleague to base camp.

## 4. Bushcraft

Become the next Ray Mears or Bear Grylls by learning to live in the woods. A typical bushcraft day will teach you the basics of surviving in the wilds as well as woodland skills including fire making, shelter building and camp-fire cooking. Depending on the season you could be learning about tracking, wild foods, charcoal making and much more.
